READING NOTES

USD stablecoin supply stood at $312.05bn on 14 September. That is 1.3440% of US M2, the broad measure of US dollars in the economy: roughly $1 of stablecoins for every $74 of US M2. We couldn’t make a reliable Signal assessment for 14 September because the evidence on individual stablecoins wasn’t strong enough. That is not a finding that no Signal applied. Stable Tape does not publish a breakdown by stablecoin, chain or issuer for this date. The comparison uses US M2 of $23,218,000,000,000, as of 1 July 2026 (source: FRED M2SL).
