READING NOTES

USD stablecoin supply stood at $312.97bn on 4 October. That is 1.3407% of US M2, the broad measure of US dollars in the economy: roughly $1 of stablecoins for every $75 of US M2. We couldn’t make a reliable Signal assessment for 4 October because the evidence on individual stablecoins wasn’t strong enough. That is not a finding that no Signal applied. Stable Tape did not publish a day-over-day breakdown by stablecoin, chain or issuer with this record. The comparison uses US M2 of $23,342,800,000,000, as of 1 August 2026 (source: FRED M2SL).
